

The Movement Disorder Society

2nd Unusual Movement Disorders Marathon Symposium

May 7, 2015

Eleven seasoned North American, South American, and European movement disorders neurologists will act as Case Presenters to a faculty of 3 giants in movement disorders: **Drs. Kailash Bhatia, Kapil Sethi, and Tony Lang**. In this second **Unusual Movement Disorders Marathon Symposium**, each Case Presenter will highlight the features of a patient with a movement disorder about whom they learned never-forgotten lessons, which forever changed the way they thought about a disease or about a treatment.

Program Description

The review of complex movement disorder cases (emphasizing unusual presentations of common diseases or common presentations of rare diseases) with accompanying video segments allows for an understanding of these disorders, their manifestations, and their treatment well above the level provided by textbooks, usual curricula, or even from the traditional conference format of description-only case presentations. The audience will have the opportunity to learn from the systematic analyses of each of these cases from seasoned experts in the field. The lessons thus acquired are expected to become

enduring memories in the nurturing, collegial Video Rounds environment of this symposium. The format and scope of the conference is a case-based video session, with accompanying diagnostic studies as appropriate.

Upon Completion: Participants should be able to recognize the value of increasing scrutiny and periodic reassessment of patients with a variety of movement disorders in order to redress earlier oversights, correct errors, and redirect a patient's management. Participants should learn that important, though perhaps subtle features on exam or history enable such diagnostic revisions.

Recommended Audience: Neurologists, Fellows, Residents, Nurses, Medical Students, Academicians, Clinical Researchers.

Symposium Director:

Alberto J. Espay, MD, MSc, University of Cincinnati

Expert Case Discussants:

1. Anthony E. Lang, MD, FRCPC, University of Toronto, Ontario, Canada
2. Kailash Bhatia, MD, FRCP, Institute of Neurology, Queen Square, London, UK
3. Kapil Sethi, MD, FRCP, Medical College of Georgia, Augusta, Georgia

Expert Case Presenters:

1. Ron Postuma, MD, MSc, Montreal General Hospital, Montreal, Canada
2. David Riley, MD, Case Western Reserve, Cleveland, USA
3. Cindy Zadikoff, MD, MSc, Northwestern University, Chicago, USA
4. Justyna Sarna, MD, PhD University of Calgary, Alberta, Canada
5. Robert Rodnitzky, MD, University of Iowa, Iowa City, USA
6. Orlando Barsottini, MD, PhD, Universidade Federale de Sao Paulo, Brazil
7. Silke Cresswell, MD, University of British Columbia, Vancouver, Canada
8. Renato Munhoz, MD, PhD, University of Toronto, Toronto, Canada
8. Francesca Morgante, MD, PhD, University of Messina, Sicily, Italy
10. Alfonso Fasano, MD, PhD, University of Toronto, Toronto, Canada
11. Mark Edwards, MD, PhD, Queen Square, London, England
12. Tamara Pringsheim, MD, FRCPC, University of Calgary, Alberta, Canada

Venue: Sheraton Hotel

123 Queen Street West

Toronto, Ontario

M5H 2M9

Time: 5:00 PM to midnight

Food and beverages will be served

Registration: Please visit www.gapsinmds.com

We are applying to have this event approved as an accredited group learning activity through The University of Toronto; Application for Mainpro-M1 has been submitted. Physicians should only claim credits commensurate with the extent of their participation in the activity.
