

Person-Centred Care: Growing stronger together

2017 CAET 36th National Conference Program

MAY 25-28, 2017 - LONDON CONVENTION CENTRE - LONDON, ONTARIO

The Canadian Association
for Enterostomal Therapy

Association Canadienne
des Stomothérapeutes

In partnership with:

CAET 2017 Conference Objectives:

- 1) Discuss opportunities to support person/family centered care and the application/ dissemination of this knowledge in all clinical settings across the continuum of care;**
- 2) Incorporate current evidence based strategies into person/family centred care through technologies, applications, and treatments related to specialized wound, ostomy, and continence practice;**
- 3) Advance the leadership role of enterostomal therapy nurses and aligned healthcare professionals through education, advocacy, research, and professional development;**
- 4) Promote the interprofessional team approach for health care providers in providing skin/wound management and person/family centered care;**
- 5) Establish networks with all members of the healthcare team to establish a integrated community of care to support people/families with wound, ostomy, and continence issues.**
